

Terms & Conditions

Access to and use of AIGI Environmental Incorporated (hereinafter referred to as AIGI Environmental) website is subject to the terms and conditions as listed below. By accessing and using this website you are agreeing to be bound by these terms and conditions. AIGI Environmental has made all reasonable efforts to ensure that the information provided through this website is accurate at the time of inclusion. Information may be updated or changed at any time without notice. AIGI Environmental accepts no liability for any inaccuracies or omissions or typographical errors in their website and any decisions based on information clarified in this website are the sole responsibility of the visitor.

Privacy Policy

Personal details which you submit to us through this website will be treated confidentially. We may use this information to inform you of products and services provided by or on behalf of AIGI Environmental.

The AIGI Environmental website may contain links to other websites – which we are not responsible for the privacy practices.

Links to Other Websites

AIGI Environmental makes no representation about any other website which you may have access to through this one, and has no control over the content of any website other than that of AIGI Environmental. A link to another website does not imply that AIGI Environmental endorses or accepts any responsibility for the content or use of such a website or link.

Location & Jurisdiction

This website is operated and controlled by AIGI Environmental in PR China. All interactions that occur between AIGI Environmental and any person accessing this website or any person communicating electronically with AIGI Environmental shall be considered to occur in PR China, where this website is posted and where electronic mail is received. This agreement and the contents of this website shall be governed by and construed in accordance with the laws of PR China.

CONDITIONS OF SALE

Installation Precautions: Users are recommended to arrange for independent study under actual working conditions, and shall only proceed to mass usage upon success of the same. Since this product is a “fitting”, users should pay sufficient attention to the condition of the original device when using this product and shall pay attention to the correct installation of this product, since these factors are crucial to the performance of this product. Firstly, before usage, users should confirm that the pressure of the system and the device are free from unusual systematic factors; secondly, before usage, users should ensure that the device appears to act in concert with the installation requirements (this point is especially crucial to old devices). After installing this product, users should try their best to inspect manually or through other means as to whether any abnormal phenomenon exists, and shall only switch on the device upon confirmation that everything is in order. Lastly, if there appears to be any abnormal phenomenon during installation or after switching on the device, users should shut down the device immediately and should try to find out the reasons.

Remark: Our company inspected this product under experimental conditions. Yet when used in practice, this product cannot function independently, and has to work in coordination with the device. The performance of the product depends on other related factors (including factors not existent under the conditions of laboratory experiments). Users shall judge independently whether to use this product, and shall ensure correct storage, installation and application of this product. As such, our company assumes no responsibility with regard to any situation arising from inappropriate storage, installation and application. All products of our company were strictly examined under the relevant national or business standards. Users shall complete checking this product within 30 working days upon receipt of the same. If users discover any problem related to the quality of this product, they shall raise their concerns within the above-mentioned period. If users fail to raise their concerns upon expiration of the above-mentioned period, this shall be treated as full acceptance of the product. Our company guarantees the

provision of products of premium quality. Should any dispute arise with regard to the quality of the products, the verification of a third-party authority shall then be required. If any defect in quality is spotted out during inspection upon delivery, our company undertakes to provide a new product of equivalent value. Our company reserves the right to change the manufacturing processes, the materials and sources of the materials without further notification. In addition, our company assumes no responsibility or liability for any unintentional typographical error or omission during printing, or any non-timely update of information. Thank you for your consideration.
